SUMMARY

Motivated BCA student with strong skills in Web Development, passionate about building responsive applications, seeking to apply technical skills in a professional IT environment for growth and development.

TECHNICAL SKILLS

HTML5, CSS3
JavaScript, PHP
Basic React and MySQL proficiency
graphic design

PROJECTS

Cricket E-Commerce Website
E-Commerce Project Developed a dynamic cricket products e-commerce website with responsive design and cart functionality.

Music Play

Developed a music streaming website using PHP, MySQL, HTML, CSS, JavaScript, and YouTube Data API. The web site fetches and displays trending and recommended songs in real-time, includes a dedicated music player page, and implements API optimization with quota handling and key rotation.

EXPERIENCE

Web Developer

Developed dynamic and responsive websites using PHP, MySQL, HTML, CSS, JavaScript, and API integration. Worked on backend logic, database management, performance optimization, and responsive UI design.

Graphic Designer & UI/UX Designer

Designed creative logos, banners, social media posts, and modern website interfaces. Created user-friendly UI/UX designs with focus on usability, wireframing, prototyping, visual hierarchy, and brand consistency to enhance user experience.
